FERTILIZER TONNAGE REPORT DIRECTIONS:

- Please forward this form for completion to the appropriate individual within your company.
- Do not report negative tonnage sold or distributed on this form. To receive a tonnage credit for a previous reporting period, please send an amendment to and a copy of that previous tonnage report, along with an explanation for the requested tonnage credit and/or refund on company letterhead.
- **Minimum Payment:** If all products registered, sold or distributed by your company are packaged in less than or equal to 25lb packages, your company is not required to report tonnage and to pay tonnage fees. Please disregard this tonnage report form. On all other products packaged in greater than 25 lb packages, a minimum payment of five dollars (\$5.00) is required, even if the tonnage is 0 – 33.33 tons.
- **Zero Tonnage:** Complete and return this report within 30 days after the end of the reporting period, even if you are reporting zero tonnage sold/distributed, to avoid the assessment of a late fee (see below). The minimum payment of five dollars (\$5.00) applies to all tonnage reports from 0 – 33.33 tons.
- **Exemptions:** Do not include exempt tonnage on the tonnage report. Exempt tonnage includes fertilizer tonnage paid and reported by another registrant and/or fertilizer registered and sold in packages of less than or equal to twenty-five pounds (25 lbs). (See intermediate distributor below.)
- **Intermediate Distributor:** On company letterhead, list the name, address, telephone number, and the amount (in tons) of each fertilizer product that was sold in greater than twenty-five pound packages or in bulk to each intermediate distributor. Then, specify if your company paid the tonnage fees for that intermediate distributor or if your company is claiming the tonnage fees as exempt. Remember to notify the intermediate distributor, especially if your company is not paying the tonnage fees. Attach the intermediate distributor list to the tonnage report.
- **Late Fee:** If the tonnage report is not filed *and* the inspection fee is not paid within thirty (30) days after the end of the specified filing period, a collection fee of ten percent (10%) of the tonnage fee due or (a minimum) late fee of twenty-five dollars (\$25.00), whichever is greater, shall be assessed in addition to the tonnage fee due.
- **Custom Grade Column:** If the guaranteed grade of your company's product is not one of the default grades on the attached list, print or type your guarantee in the "Custom Grade" column. If it is a different product, see "mixed products" below.
- **Mixed Products:** If you report mixed fertilizer products, fill out the brand, grade, number of tons, and the other information under the code 0 (zero) in the chart on the tonnage report or on attached company letterhead, if additional pages are necessary.
- **Record Keeping:** Keep a copy of this form for your records. Mail the original to the address above. You are required to keep a record of the number of net tons distributed in Idaho and related information for a period of five (5) years.
